

Izračunaj.

2 + 2 =

A visual representation of the addition 2 + 2 = ? is shown. On the left, there are two pink circles. In the middle, there are two purple circles. On the right, there are four pink circles arranged in a vertical column. Below the circles is the equation 2 + 2 = followed by a small empty square box.

1 + 4 =

A visual representation of the addition 1 + 4 = ? is shown. On the left, there is one blue circle. In the middle, there are four green circles arranged in a vertical column. On the right, there are five circles in a vertical column: one blue circle at the bottom, followed by four green circles. Below the circles is the equation 1 + 4 = followed by a small empty square box.

3 + 2 =

A visual representation of the addition 3 + 2 = ? is shown. On the left, there are three grey circles arranged in a vertical column. In the middle, there are two red circles arranged in a vertical column. On the right, there are five circles in a vertical column: three grey circles at the bottom, followed by two red circles. Below the circles is the equation 3 + 2 = followed by a small empty square box.

1 + 1 =

A visual representation of the addition 1 + 1 = ? is shown. On the left, there is one yellow circle. In the middle, there is one purple circle. On the right, there are two circles in a vertical column: one yellow circle at the bottom and one purple circle on top. Below the circles is the equation 1 + 1 = followed by a small empty square box.

4 + 1 =

A visual representation of the addition 4 + 1 = ? is shown. On the left, there are four blue circles arranged in a vertical column. In the middle, there is one pink circle. On the right, there are five circles in a vertical column: four blue circles at the bottom, followed by one pink circle at the top. Below the circles is the equation 4 + 1 = followed by a small empty square box.

2 + 3 =

A visual representation of the addition 2 + 3 = ? is shown. On the left, there are two purple circles arranged in a vertical column. In the middle, there are three green circles arranged in a vertical column. On the right, there are five circles in a vertical column: two purple circles at the bottom, followed by three green circles. Below the circles is the equation 2 + 3 = followed by a small empty square box.
